

Site inspection at Tortuguero Region

Jessica - Cristina - Annette

Last weekend, Cristina, Annette and I had the opportunity of enjoying a site inspection at the Tortuguero region; the best way to get to know what we offer for your clients, logistics properties, cuisine and activities is by experimenting everything first-hand.

Our experience started by driving through the Braulio Carrillo National Park: an amazing tropical forest and mountains.

After the drive, we got to the pier to go on the boat to head to the adventure on the Tropical jungle; we were immersed in the dense rainforest, surrounded just by the water on the canals, lavish flora, wild fauna and the exotic Caribbean shore.

The tour through the canals of the Tortuguero National Park was an adventure we will always remember; the lush flora & fauna, plus travelling on water that seemed to be mirrors, reflecting the sky and the beauty of the lush tropical forest.

The sunsets were of magical colors painting the sky of our Caribbean.

Great for groups; one of the biggest lodges in the area; located right in front of the town of Tortuguero; surrounded by tropical gardens and the canals.

These properties have wooden bungalows immersed in the lush tropical forest. Cozy lodging allows you to the unique and unforgettable experience of sleeping with the sounds of nature. Both lodges are great for couples & honeymooners due to the privacy of each independent bungalow.

The most upscale at the region.

Great for luxury travellers; the only lodge in the region that offers: T.V., A/C and a full board, "a la carte" meals.

Good option for groups. Great location in the middle of the main canal and the Caribbean shore.

For further information, we will be glad to help you on the design of an unforgettable vacation in this amazing region at Costa Rica.
